Error against dx (expect gradient d + 1)
linearSemiLagrangian (0.53)
quadraticSemiLagrangian (0.50)
cubicSemiLagrangian (0.52)
Relative L2 error
Grid spacing dx
nx = 40, nt = 10, Courant number c = 0.4
linearSemiLagrangian (-0.20)
quadraticSemiLagrangian (-0.12)
cubicSemiLagrangian (-0.05)
Initial condition
Analytic solution
